JOB VACANCY

Economist / Investment Analyst - EU Innovation projects
Code: EA2611

Background: Economics, Finance, Business Administration, or other relevant fields
Location: Chalandri, Attiki
Type of appointment: Full time, permanent position

EXELIA seeks to recruit one (1) full-time, in-house consultant researcher to strengthen its team in investment analysis and EU-funded innovation projects.

The company:

EXELIA develops innovative projects for investment activities and interregional cooperation. The company launches and coordinates EU-funded projects and carries out policy analysis and empirical research for its clients. Technical innovation and policy learning are essential parameters of our work. We coordinate and implement technical work as project leaders or partners in Interreg, Horizon Europe, Innovative investments and Erasmus+ projects.

Main functions - role:

The role combines economic and financial analysis, applied research, technical writing, and EU proposals' development, with a focus on investment assessments, business plans, and the economic and regulatory factors shaping investment decisions.

Day-to-day tasks include:

- Conducting techno-economic assessments, cost-benefit analyses, and investment assessments for renewable energy, energy efficiency, district heating and energy storage.
- Contributing to financial modelling & analysis, cash-flow projections, investment scenarios and financing plans.
- Supporting the development and assessment of business plans, revenue models and investment scenarios for innovative energy projects.
- Analysing market trends, regulatory frameworks, EU policies, and technology developments to inform investment decisions and project proposals.

Minimum requirements:

- University degree and post-graduate studies in Economics, Finance, Business Administration, or another relevant discipline.
- At least **2 years of proven work experience or a PhD** in a relevant field.
- Proficiency in English.
- Familiarity with the preparation of business plans in the domain of renewable energy or related sectors.
- *Experience in analysing energy investment plans and preparing related proposals would be considered an asset.*

We offer:

- Salary range: 1,300 - 2,300 €
  Individual salary proposals depend on each candidate's background, skills, and relevant experience.
- Competitive remuneration.
- Interaction with international clients, innovative work themes, knowledge intensive daily activities, team with strong research and educational achievements.
